---

Hi Katrina,

Attached are a series of our comments for the Wilcox Oil RI/FS draft Sampling and Analysis Plan (SAP) for discussion on the June 3<sup>rd</sup> call. In summary, the comments are located in the spreadsheet and pdf, and the word documents supplement the comments with the focus on developing decision units for characterizing the tanks/source area and the Wilcox sweetening area. Please note there are multiple tabs with the spreadsheet.

Thanks again for giving us the opportunity to contribute and we look forward to our discussion on June 3<sup>rd</sup>.

Best,

Matt

Matthew Jefferson
